

Total workflow time by source combination (shared axes)

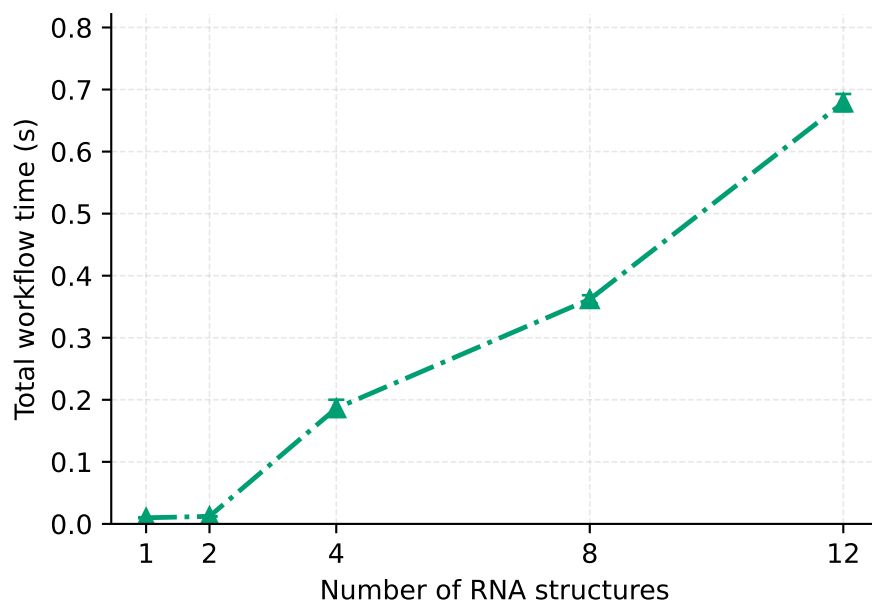

A: RNA3DMotifAtlas

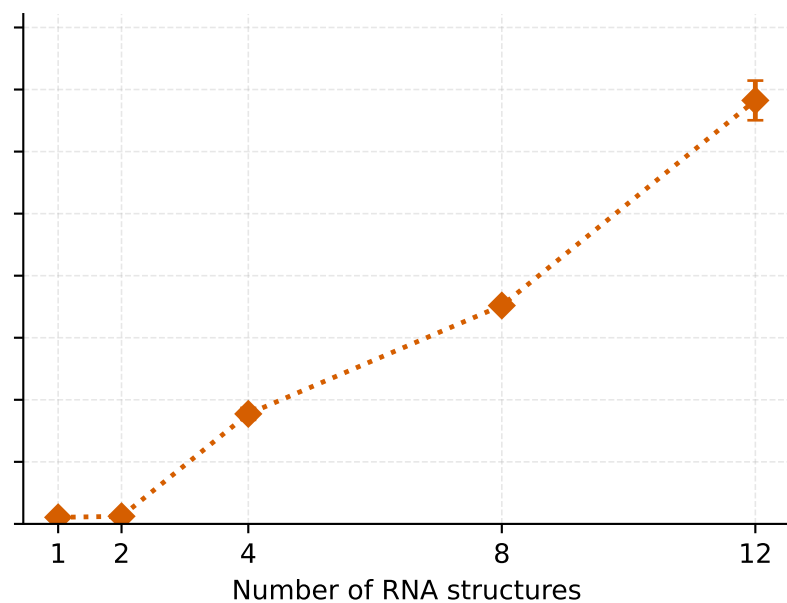

B: RNA3DMotifAtlas + Rfam

C: RNA3DMotifAtlas + Rfam + FR3D*

D: RNA3DMotifAtlas + Rfam + FR3D* + RNAMotifScanX

*FR3D is represented by a user-supplied precomputed BGSU RNA 3D Hub motif list (bgsu_motif_list.csv), not a live fr3d-python geometric search. Time includes annotation load + motif search.
